All creatures great and small. I make hand-built ceramic sculpture exploring a deep love for nature and storytelling. With humour and charm of both flora and fauna I celebrate the whimsical creatures that live amongst us.

I make colourful, mixed media art using paint, print, and papier-mâché. My work is playful and expressive, often inspired by time spent outside among trees and water.
Each piece is a mix of movement, texture, and feeling.

I love working with glass, whether I'm fusing, designing or using copper foil. It's always a creative adventure. Playing with colour, texture and shape keeps things fresh and no two pieces turn out the same.
